

How to choose the courses, indicated in ERASMUS Study Plan?

to get enough ECTS (30 per semester) you have to complete a special Study plan, that we developed for ERASMUS-students. It is divided into 3 modules (see attached).

1. Green module= here you can get at least 18 ECTS, choosing a core subject (14 ECTS). Then you have the possibility to get lessons in the second instrument (see the list) and get +2 ECTS to your 14 ECTS. Besides that, you can get +2 ECTS choosing the supplementary core subject (see the list). For percussion, f.e. you can choose prima vista or improvisation and get 2 ECTS. So at the end of the term you get at least 18 ECTS for this module.

2. Yellow module= you can play in different ensembles, (see the yellow table) and get 2 ECTS for each participation in ensembles. You can get at least 4 ECTS for this module.

3. Beige module= for the most of courses you need German (mind. B2). but you have the following possibilities to get the ECTS:

Body work=1 ECTS

German Culture (you have to visit at least 5 cultural events per term and bring us the tickets as a proof)=1 ECTS

Own Project - you create a power point presentation about your university and present it (10 Minutes) to our outgoing students (who are interested to go abroad)=1 ECTS

German Language Class will be offered in our University (B1) = 3 ECTS

International Welcome DAY is mandatory for all students from abroad (you get all the information concerning your study stay in Würzburg and at our institution)=1 ECTS

In fact you can get 29 ECTS, following the plan I described here. Please discuss with your ERASMUS-coordinator how much ECTS you have to get for every term.
